Empathia Pacific, Inc.’s Provider Dispute Resolution Policy for California Plan Business

Dispute resolution policy for contracted and non-contracted providers

Provider disputes may include claims and other billing issues, contract issues and requests for reimbursement of claims overpayment. Empathia Pacific, Inc. intends to process and resolve provider disputes quickly, fairly and cost-effectively. Our policy is the same for both in-network and out-of-network providers and does not include arbitration.

Empathia Pacific, Inc. does not discriminate or retaliate against providers who file a dispute. Filing a dispute is free. However, providers are responsible for any costs they may realize as a result of using our dispute resolution process. These costs may include postage for mailing us information to help us resolve the dispute.

Our Provider Dispute Resolution and Claims Processing staff members are in charge of our provider dispute resolution process. We keep copies of all the information related to a provider dispute for at least five years. This information includes the provider dispute and all related notes, documents and other information that we used to reach our final decision.

Required information for submitting disputes

California regulations require that every provider dispute include the following information:

- Provider’s name
- Provider tax identification number
- Provider’s contact information

Along with the above information, some disputes require additional information.

Disputes about a claim or a request for reimbursement of a claim overpayment must also include:

- An explanation of the issue, including the original claim number
- The date (s) of service
- An explanation of why the provider believes the payment amount, request for additional information, request for reimbursement of a claim overpayment, or other action we took is incorrect.

Provider disputes that are not about a claim, for example a contract dispute, must also include:

- An explanation of the issue.
- The provider’s position on that issue.
Disputes involving multiple claims:

Providers may batch multiple claims, billing or contractual disputes that are similar and file them as a single dispute. We recommend that disputes filed in batches be submitted in the following format:

- Sort disputes by similar issue.
- Provide a cover sheet for each batch of similar issues. Individually number and list the required information for the type of dispute (refer to the above sections) for each disputed item within the batch.
- Number each cover sheet.
- Provide a cover letter for the entire submission. The cover letter should describe each provider dispute and reference the applicable numbered cover sheets.

Provider disputes that do not include all required information may be returned to the submitter.

Provider disputes submitted on behalf of a member or a group of members treated by the provider will be handled according to the Empathia Pacific, Inc. member grievance process, not the provider dispute resolution process. Member issues may include a clinical appeal of a utilization management decision, a clinical dispute during the concurrent care review process or a provider seeking an expedited review on behalf of a member.
